

SWITCH2D550

NEW REGULATOR KIT

Your alternator is equipped with an analog regulator R449 or other regulator associated with an optional R726, R729, R731 or R734 module, then our new **SWITCH2D550** regulator kit is for you!

The **SWITCH2D550** is an all-in-one kit that allows you to quickly replace an analog regulator by the D550 digital regulator.

Our ready-to-use solution!

• INCLUDED

- D550 regulator
- MATE-N-LOK set of cables with labelled wires (length 1 m)
- USB cable
- Installation manual

• ADVANTAGES

- Prevents wiring mistakes
- Avoids the use of specific tools
- Saves time when replacing the regulator
- Allows to be technologically up-to-date
- Improves voltage regulation performances
- Complies with all new safety standards

• OPTION

- Optional terminal block kit for easy rewiring

Nidec Power accompanies you during the retrofit of your AVR via our video.
